INDEX.

ABERDEEN CORRESPONDENCE.—Reform at the Royal Infirmary, 499—Dr. Parkes's evidence before the Army and Navy Committee, ib.—Visitation of examinations, ib.—Sanitary improvement, ib.
Aberdeen University, pass-list of, 472
Abortion, trial for, 609; produced by laminaria digitata, 634; and menorrhagia dependent upon lead-poisoning, 287; case of, at Birmingham, 712
Absinthe, proposed tax on, by the French Senate, 615
Academy of Sciences, rewards granted at the, 386
Accidents in Europe, statistics of, 100
Acetonemia, a new disease, 554
Acephalocyst, large, at the back of the neck successfully removed, 257
Action for slander, 611
Acupressure in a case of primary amputation of leg for injury, followed by sloughing, secondary hæmorrhage, pyæmia, and death, 122
Adair, Dr. P., obituary notice of, 242
Adams, Mr. W., the curability of lateral curvature of the spine, 215
Addenbrooke's Hospital, Cambridge, 464
Air in London law courts, 329, 390
Albumen, tests for, 305; of the blood in cholera, 634
Albuminous urine a symptom of cholera, 47
Albuminuria, nervous idiopathic, mode of distinguishing it from that of diseased kidneys, 633
Alcoholic treatment of disease, 409
Alcoholism, acute, on some effects of, 46
Alderson, Dr. J., annual address at the Royal Medical and Chirurgical Society, 316
Aldis, Dr. C. J. B., laying-out of dead infants, 360
Algeria, hospital for natives in, 296
Alkaline sulphides, how to detect them in water, 633
Allardyce, Dr. J., obituary of, 474
Allen, Mr. J., case of lithotomy; mulberry calculus weighing eight ounces and a quarter; death, 228
Amanitine, the poison of mushrooms, 544
Amputation through the knee-joint by flaps, fatal result, 35; another case, followed by recovery, 36; by a circular cut, recovery, ib.
Amussat's operation, a case in which it was successfully performed for the relief of a vesico-intestinal fistula, 400
Amyloid degeneration of the digestive tube, 238
Anæsthesia by mixed vapours, on, 144, 509
——, local, 260, 290, 294, 367, 394, 400, 470, 524, 674, 703; in London hospitals, 312; employment of, 424, 425; operation for ptosis and extirpation of an eyeball under, 425; a new agent for, 501; on the various methods of producing, by intense cold, 533; a new freezing agent for, 613
Anæsthetic, a new, 162
Anæsthetics, compound, 324; in midwifery, 709
Andaman Islands, skulls from the, 501
Anderson's University, 162
Aneurism, of the aorta, dissecting, 39; cone-shaped, of the arch of the aorta, simulating aneurism of the innominate, 66; of the axillary artery, examination by the sphygmograph, 176; of the popliteal artery, treatment by forced flexion unsuccessful, and recovery after ligature of the femoral, 312; popliteal, of the right leg, in a man who had previously undergone the operation of ligature of the femoral artery for aneurism in the opposite limb; successful ligature of the right femoral artery, 456; inguinal, successful ligature of the external iliac artery for, 484; cirsoid, of the foot, ligature successively, of the posterior tibial, dorsalis pedis, and anterior tibial arteries, in a case of, 536
Aneurismal tumour, large, in the posterior triangle, diagnosed by the aid of the sphygmograph, hæmorrhage from rupture, and death, 65
Animal heat, production of, 159
Ankle-joint, compound fracture of the, amputation in a case of, followed by gangrene and death, 123; disease of, modification of Pirogoff's operation in a case of, 148
Annandale, Mr. T., Surgical Appliances and Minor Operative Surgery (review), 688, 719
Anstie, Dr. F. E., on certain painful affections of the fifth nerve, 653; the sphygmograph in English medical practice, 671
Anthropological Society, 25
Anthropophagy, a case of, 644
Aphasia, with right hemiplegia: lesion in the island of Reil extending into the external frontal convolution, 656
Aphonia, functional, remarks on, 171
Apoplexy mistaken for intoxication, 454
Apothecaries' Hall, pass-lists of, 25, 53, 61, 108, 134, 188, 217, 242, 273, 302, 330, 357, 386, 415, 444, 472, 501, 526, 554, 584, 614, 672, 701, 720
Appeal, an, 469; from Philip, the, 182
Arm, a new artificial, 443
Armstrong fund, the, 694
Army, health of the, 42
——, medical department, 83, 503; pass-list of the, 242; medical officers' benevolent and friendly societies, 584; medical blue-book, 371, 676
—— Medical School, examination papers of the, 191, 353, 356
—— and navy, the Admiralty Committee on the, 131, 193, 237, 245, 324, 549; report of the Committee appointed Oct. 18th, 1864, to inquire into the treatment and prevention of venereal diseases in the, 187; rank, pay, and position of the medical officers in the, 269, 433; medical services of the, 519, 676
Arnott, Dr. J., on the various methods of producing local anæsthesia by intense cold, 533
Arrowroot, how to detect the adulteration of, 238
Arterio-venous cyst in the popliteal nerve, an account of an, 149
Artificial respiration and galvanism, recovery from threatened death by apnœa by, 435
Asphyxia in infants, 242
Assault on a naval medical officer, 61
Assistants, medical, 28
Astigmatism, an apparatus for determining, 543
Astragalus, excision of the lateral half of the, cure with use of ankle-joint, 708
Atmograph, the, 610
Atmospheric impurity, test of, 475
Auditory canal and the larynx, remarks on the sympathy between the, 451
Australia, drought in, 242
Austrian army, dearth of physicians and surgeons in the, 614; medical volunteering in the, 696, 704
—— navy, surgeons wanted in the, 536
Authors' proofs, 83
Aveling, Dr. J. H., instruments for flexions of the uterus, 326; the intra-uterine spring pessary, 533
Axillary tumour, large, successfully removed, 685

B

Babington, Dr. B. G., obituary of, 445
Baconian method, the application of the, to medicine, 366
Bakehouse, death in the, 375
Baily, M., death of, 526
Bantock, Dr. G. G., clitoridectomy, 663
Barclay, Dr. A. W., on the treatment of pneumonia, 49
Barnes, Dr. R., annual address at the Obstetrical Society, 68
Baronet, another medical, 47
Barwell, Mr. R., on certain practical points in the pathology and treatment of lateral curvature of the spine, 94
Bath United Hospital, 357
Beale, Mr. R. H., dilating instrument for stricture of the urethra, 389
Beck, Dr. T. S., on enlargements of the uterus which follow abortions, premature or natural confinements, 326
Beckett, Mr. A. B., obituary notice of, 387
Belgians, King of the, physician to the, 701
Bell, Mr. W., modification of the knee-joint splint used at King's College Hospital, 328
——, Sir C., the late, 502; the Waterloo Sketches of, 213
Bennet, Dr. J. H., the climate and hygienic state of Malaga, 20
Bennett, Dr. J. H., further observations on the restorative treatment of pneumonia, 114, 132; observations on medical education, 505
Bequest, a singular, 701
Bequests, 41, 109, 356, 387, 515
Bermondsey infirmary, paid nurses at, 494
Berry, Prof., on two cases of obstructed labour, 9
Bethlehem Hospital, the election at, 293
Bethnal-green infirmary, 104, 215
Bichloride of carbon, on the anæsthetic properties of, 288
Bigg, Mr. H. H., cause of spinal curvature, 165
Billing, Dr., 549
Biographies, neglected, 17
Birkenhead, new baths for, 672
Birmingham, the proposed sanatorium at, 351
Birth extraordinary, 386
Bismarck's physician, 501
Black, Dr. D. C., on an outbreak of typhoid fever, with special reference to its etiology, and complication of diphtheria, 173
Bleeding, the practice of, amongst English and continental physicians, 235; in apoplexy, 417
Blennorrhagia, use of matico in, 47
Blindness caused by lightning, 615
Blood, an ammoniacal deposit found by drying, 238
Blood-globules, action of the, in producing coagulation, 48
Blood-stains on weapons, 323
Board of guardians, a voluntary, 320; a, in a fix, 695
—— of Works, the, and its doings, 14, 74
Boeck, Prof. W., farewell dinner to, 18; on syphilitic inoculation, 553; on errors in the doctrine of syphilization, 718
Boils, treatment of, 616
Bonney, Dr., the case of Rudman v. Armstrong, 616
Botany, Outlines of Elementary (review), 70; the Treasury of (review), 260
Bouchut, Dr. E., du Diagnostic des Maladies du Système Nerveux par l'Ophthalmoscope (review), 402
"Brahee sugar," 27, 56, 83
Brain, case of abscess of the, following a kick; trephining; evacuation of the contents; death, 91; on a case of peculiar lesion of the, accompanied by more or less complete loss of the power of speech, 397
Bran biscuits in diabetes, 640, 698, 719
Brande, Professor, death of, 189
Brandee, medicated, 54; Indian, 162
Brandt, Dr. G. H., notes on the climate of Madeira, 133
Breathing room for Londoners, 127
Bridewell and Bethlehem Hospital compensation claim, 466
Bridgewater, politeness and good breeding at, 431
Brighton railway, the late fatal accident on the, 493
—— review, the, 374, 407
Brinton, Dr. W., on spasmodic stricture of the œsophagus, 2
Brisbane, Dr. J., delirium in small-pox, 675
Bristowe, Dr. J. S., entozoa in flesh, 79
British Medical Association, 615, 701, 722; meeting of the Metropolitan Counties Branch of the, amendment of the sanitary laws, 131
Briton Medical and General Life Assurance Association, 435
Broadbent, Dr. W. H., on a case of right hemiplegia, with deviation of the eyes to the left, and aphasia, 480
Brodhurst, Mr. B. E., curvature of the spine, 137
Bromide of potassium, the action of, 238; the value of, in nervous diseases, 447; in cases of insomnia, the value of, 503
Bronchial arteries, injection of the, 533
Brown, Dr. A., the case of Helen Forester, 728
——, Mr. I. R., on the use of the actual cautery in ovariotomy, 347; on the Curability of Certain Forms of Insanity, Epilepsy, Catalepsy, and Hysteria in Females (review), 465; on clitoridectomy, 718

Browne, Mr. E. A., the treatment of gonorrhœa and gleet by soluble bougies, 734
Brown-Séquard, Dr. C. E., on the recent advances of our knowledge in the diagnosis and treatment of nervous affections, 1, 85, 139, 247; on the excitability of the nervous system, 52
Bruce, Lady Knight, death of, 501

Foster, Dr. B., the sphygmograph in English medical practice, 634
Fowey Cottage Hospital, 54
Fowler, Dr. R., the Griffin testimonial, 676, 703, 723
——, Mr. J., on general diphtheria, 453
Fox, Dr. C. B., remarks on the sympathy between the auditory canal and the larynx, 451
——, Dr. T., vegetable parasites, 110, 166
Fractures and other injuries, statistical observations on, 450
France and England, medical education in, 102
French, Mr. J. G., the application of the Baconian method to medicine 366
French Education Commission, 366
—— prize of 50,000f. the, 482
Frog's eye, circulation in the, seen with an ophthalmoscope, 544
Frontal bone, compound fracture of the, recovery following removal of sequestra, 91
Fuller, Dr. H. W., Dr. Waters's paper on pneumonia, 23

G

Gairdner, Dr. W. T., on the treatment of acute diseases of the chest, 29, 57
Gamgee, Mr. J. S., Dr. Richardson's local anæsthesia, 299
Ganglia, the, to select for microscopic examination, 634
Gangrene of the cellular tissue filling the ischio-rectal fossa, 589
Garden, Mr. A. M., the cattle disease in India, 476
Garibaldi and Gavazzi, 722
Garlick, Mr. F. S., the Vaccination Bill, 413
Garrett, Mr. E., lateral deviation of the eyes in hemiplegia, 529
Gas companies, the, and Victoria-park, 525, 669
Gaskoin, Mr. G., on continued inoculation and recent views on syphilis, 685
General Medical Council, the, 183, 373, 408, 491, 608, 636; meeting of the, 205, 517, 576; and the College of Surgeons, 297; report of the proceedings of the, 550, 585, 593, 623
Genital organs, remarkable case of accidental injury of, by machinery, 67
Genoa, de la Résection du (review), 150
German Hospital, Dalston, 302
Gibson, Mr. J., R.A., the late, 163, 384
Gill, Dr. W. S., Dr. Lankester and the medical profession, 712
Gilliland, Dr. W. I., obituary of, 722
GLASGOW CORRESPONDENCE.—Hospital organization, 385—Conversazione at the Faculty Hall, ib. —Decease of a "Quarterly," 386
Glasgow Improvement Bill, the, 546
—— Medico-Chirurgical Society, 386
Glycerine soap, 447
Godrich, Mr. J., union surgeons and turnpike dues, 703
Gonorrhœa, influence of, on other diseases, 676; and Syphilis, a Treatise on (review), 206, 230, 289; and gleet, the treatment of, by soluble bougies, 513, 674, 724
Gordon, Dr. R. H., treatment of disease by oxygen, 370
Gough, Elizabeth, subscription for, 189
Gravely, Mr. R., injuries from the bite of a rat, 475
Great Northern Hospital, 601, 584
Greek physician, a, charged with poisoning his patient, 372
Greenhalgh, Dr. R., comparative advantages of Cæsarean section over craniotomy in extreme distortions of the brim, 9; the expanding uterine stem, 309, 468; on obstructive dysmenorrhœa, 458; iodized cotton, 562
Greenway, Mr. H., on a new form of leg suspender and bed-guard, 302
Greenwich Hospital, what should be done with? 128
—— Workhouse Infirmary, 129
Gregory, Mr., the case of, 193, 305, 333
Griffin, Mr. R., Poor-law medical reform, 23, 80, 109, 161, 193, 245, 275, 447, 586, 671, 699, 719; the testimonial to, 111, 136, 193, 244, 585, 676, 703, 717, 724
—— Mr. W. H., obituary notice of, 190
Griffiths, Mr. J., obituary of, 722
Grimshaw, Dr. T. W., hæmoptysis following typhus fever, 34
Grosjean, Mr. J., quarantine, 556
Guardians at work, 165
—— of the sick, 298
Guards, medical promotion in the, 373, 382, 414, 443, 493, 518, 530
Guernsey militia, 237
Gull, Dr. W. W., bedside remarks on some cases in the wards, 6; on a case of chronic ulcer of stomach, 227

H

Hæmaturia, 6
Hæmoptysis following typhus fever, 34
Hæmorrhoids and prolapsus of the rectum treated by the screw clamp, details of 35 additional cases of, 680
Hall, Sir J., obituary notice of, 109
Hamilton, Mr. E., Cases in Surgery (review), 12
Hammond, Dr. W. H., Lectures on Venereal Diseases (review), 206, 230, 289
Hancock, Mr. H., on the anatomy and surgery of the human foot, 617, 646, 677, 705
Hand, lacerated wound of, and contusion of wrist, by machinery; amputation of forearm, 67
Harley, Dr. J., on a case of hydatid disease of the liver, and remarks on the treatment of similar tumours, 538
Harris, Mr. F. H., clitoridectomy, 690
Harrison, Dr. J., obituary of, 527
Hart, Mr. E., on cataract with reference to improved methods of diagnosis and treatment, 537
Hartlepool and house-surgeons, 669
Harveian Society, 53
Hassall, Dr. A. H., on the concentration and preservation of meat, 185, 409; bran biscuits in diabetes, 640, 719
Hawes, Dr., death of, 584
Hawkins, Mr. J., death of, 330
Head, contused wound of the, and concussion of brain from a fall, 68
Heale, Dr. J. N., on the physiology of the lungs, 327; injection of the bronchial arteries, 523
Health, the Restoration of (review), 403
Healthy homes for artisans, 243
Heath, Mr. C., mulberry calculus of large size removed from the female bladder by lithotrity; good recovery, 145; Manual of Minor Surgery and Bandaging (review), 403
Hectic fever in phthisis, 703
Hembrough, Mr. J. W., a new uterine dilator, 240, 300
Hemiplegia, note on lateral deviation of the eyes in, and in certain epileptiform seizures, 311; with lateral deviation of the eyeballs, on a case of, 420; right, own case of, with deviation of the eyes to the left, and aphasia, 460; lateral deviation of the eyes in, 529, 535, 544
Hepatitis, tropical, on the treatment of, 50, 80
Herbalist, trial of a, 54
Hernia, on, 201; three successful operations for, on one patient, 510; a case in which a new operation for the radical cure of, was successfully performed, 661; on the radical cure of, 680; strangulated femoral, case of, in which the intestine was gangrenous, and an artificial anus was made, 92; inguinal, radical cure of, wire method, with seton through the sac, 122; congenital, in an infant twenty-eight days old, 289; congenital, in a young man, fatal case of, ib.; strangulated omental, in a patient affected with ascites, death following operation in a case of, 237; oblique inguinal, and varicocele, a case in which both were operated on at the same time, 665
Hickman, Dr. W., on a case of poisoning by hydrocyanic a. id, 310
Hicks's patent plastic splints, 370
Hill, Mr. B., subcutaneous injection of mercury in constitutional syphilis, 498
Hilton, Mr. J., clinical lectures delivered at Guy's Hospital: on popliteal aneurism, 196; on fracture of the base of the skull, 477; on a case of fracture of pelvis, of skull, &c., 531
Hinton, Mr. J., perforated membrana tympani and the Eustachian tube, 481
Hip, a case of sinus on the, originating in a renal abscess, which ultimately burst into the peritoneal cavity, and killed by exciting peritonitis and pyæmia, 654
Hip-joint, on amputation at the, for encephaloid tumour of the femur, 221; amputation at the, for recurrent fibroid disease of the thigh, 367; for long-standing disease of the pelvis and upper part of the femur, 369; cases of excision of the, 512; Disease, on (review), 402; treatment of, by gutta-percha splints, 369
Hippophagy in Berlin, 302
Hodgkin, Dr. T., obituary of, 445
Hogg, Mr. J., vegetable parasites, 137; parasitic fungi, 304
Holmes, Mr. T., on subperiosteal resection of bone in the treatment of acute periosteal abscess, with the history of a case in which the whole diaphysis of the tibia was removed at the commencement of the disease, 340
Holt, Mr. R., on a case in which fourteen calculi were impacted in the urethra in connexion with stricture, 283
Holthouse, Mr. C., case of fracture of the base of the skull, 365
Homes for the poor of London, 153
Homœopathy, on, 142, 170, 587
Homologies of the limbs, 154
Hong Kong, mortality at, 189; mortality among the troops at, 553; health of, in 1865, 636
Horrida bella, 213
Horse, Management of the (review), 261; death from the bite of a, 444
Horse-meat shop in Paris, 25
Horsetrainer's Guide, the (review), 261
Hospital for Sick Children, 189; for Sick Animals, 428
——, management, 43; accommodation, 81; statistical records, 137; nursing, 373; registrars, 605

Hospitals, rating of, 234
Howe, Dr. A. H., a Theoretical Inquiry into the Physical Cause of Epidemic Diseases (review), 318
Hudson, Mr. R., naval invaliding, 675
Hugman, Mr. W. C., on Hip-joint Disease (review), 402
Hume, Mr. F. H., the case of, 155
Humerus, ununited fracture of the, remedied by excision of ends of bone, 709
Humphry, Dr. G. M., case of injury to the brain (being an account of the case of the late Dr. Whewell), 279
Hunter v. the "Pall-mall Gazette," 81
Hunterian Museum, the, 135, 321
—— Society, anniversary meeting of the, 189
Hutchinson, Mr. J., on a case of hydrophobia, 511
Huxley, Mr. T. H., the lectures of, at the College of Surgeons, 150, 157, 180, 214, 239, 268, 289, 324, 350, 381, 408, 434, 465, 494, 607; on the relation of physical science to medical science and education, 531; as a science teacher, 429
Hydatid cyst of the liver, on the treatment of, by tapping, 524
—— disease of the liver, on a case of, and remarks on the treatment of similar tumours, 538
—— of the brain, 444
Hydrocyanic acid, on a case of poisoning by, 310
Hydrophobia, 415, 444, 492, 704; prevention of, 303; on a case of, 511; salivation in, 579; deaths from, 673; and kynophobia, 693
Hypersulphite (?) of soda in intermittent fevers, 544
Hypodermic method of injection, the, 469, 503

I

Idiots, the Asylum for, 721
Ileum, rupture of the, at the seat of an ulcer, fatal case of, 256
Illuminator for minute opaque microscopic objects, 48
Impostor, an, 219
Incus and stapes, on disconnexion of the, its effect upon the function of hearing, and its treatment, 660
India, pay of medical officers in, 84; the cattle disease in, 476
Indian army, sickness in the, 189
—— assistant-surgeons, 267
—— cinchona bark, 108
—— medical service, 389, 418, 702
Infant, a large, 112; mortality, 460
Infanticide, 375, 584
Infantile mortality, 405
Infection, disinfection, and specifics, 234
Infirmaries, on the construction of, 547

LECTURES, ETC.

ARNOTT, Dr. F. E.:
Lettsomian Lectures on Certain Painful Affections of the Fifth Nerve. Delivered before the Medical Society of London, Session 1865-66.
Lecture I., 653

BENNETT, Dr. J. H.:
Observations on Medical Observation, 505

BROWN-SÉQUARD, Dr. C. E.:
Lectures on the Recent Advances of our Knowledge in the Diagnosis and Treatment of Functional Nervous Affections.
Lecture I., General Remarks on the Causes, Diagnosis, and Treatment of Functional Nervous Affections, 1, 85, 130, 247

ERICHSEN, Mr. J. E.:
Clinical Lecture on Amputation at the Hip-joint for Encephaloid Tumour of the Femur. Delivered at University College Hospital, 221

GAIRDNER, Dr. W. T.:
Clinical Observations delivered in the Glasgow Royal Infirmary.
On the Treatment of Acute Diseases of the Chest, 29, 57

HANCOCK, Mr. H.:
A Course of Lectures on the Anatomy and Surgery of the Human Foot. Delivered at the Royal College of Surgeons of England, in June, 1866.
Lecture I., Part I., 617; Part II., 649
Lecture II., Part I., 677; Part II., 705

HART, Mr. E.:
Clinical Lectures on Cataract, with reference to Improved Methods of Diagnosis and Treatment. Delivered at St. Mary's Hospital, 557

HILTON, Mr. J.:
Clinical Lectures delivered at Guy's Hospital during the Winter Session 1865-66.
Lecture I., Popliteal Aneurism; Cancerous Tumour of the Arm; Fracture of the Olecranon; Wounded Ulnar Artery; Phagedenic Sloughing, benefited by Irrigation, after failure of Escharotics, 195
Lecture II., Fractured Base of Skull; Meningitis; Death, 477
Lecture III., Fracture of Pelvis, of Skull, and of Eighth and Ninth Left Ribs; Rupture of Spleen; limited Pleuro-pneumony, Abscess between Stomach, Liver, and Spleen; Death; Autopsy, 531

JOHNSON, Dr. G.:
A Lecture on Delirium Tremens, its Symptoms, Pathology, and Treatment, 419, 449

LEE, Mr. H.:
Lectures on Syphilitic Inoculation in 1865.
Lecture I., Different Forms of Syphilitic Inoculation, 335
Lecture II., Syphilization, 361
Lecture III., Treatment of Syphilis, 391

MACLEAN, Dr. W. C.:
Lecture on the Treatment of Cholera. Delivered at the Royal Victoria Hospital, Netley, 113, 167

WILKS, Dr. S.:
Abstract of Lecture introductory to part of a Course on the Theory and Practice of Medicine. Delivered at Guy's Hospital, 277, 307

Lee, Mr. H., on syphilitic inoculation in 1865, 335, 361, 391, 497, 553, 612
Leeds, medical officer of health for, 549
Leg, compound comminuted fracture of the bones of the, followed by delirium tremens and death, 257
Legislation, medical, in England and Canada, 521
Leg-suspender and bed-guard, on a new form of, 202
Lepers, 76
Letheby, Dr. H., a case of distress, 643
Licentiates of Scotch corporations, 585, 616
Liebig, Baron, on coffee, 17
Life assurance and the medical profession, 434, 647, 703
Lithotrity, mulberry calculus of large size removed from the female bladder by; good recovery, 145; the proofs that it is an eminently successful operation, 169, 200; followed by lithotomy, case of, 426; syringe, 455, 503, 515
LIVERPOOL CORRESPONDENCE.—The cholera on board the "England," 479—Death-rate of the town, ib.
Liverpool, the cholera at, 575
Llangefni case, the, 388, 414
Lloyd, Mr. E., Charterhouse and its registrar, 413
Lobb, Dr., testimonial to, 302
Local museums, 323, 370
London fever and the railways, 81
——— guardians and the sick poor, 407
——— Hospital, 131
——— Surgical Home, 273
——— University, 296; preliminary scientific examination of the, 56, 106, 130, 219; pass-list of, 330; representation of the, 329; a home for the, 404, 500; the graduation meeting of the, 520
"London," wreck of the, 108
Longevity, extraordinary female, 302, 316
Lowe, Dr. J., parasitic fungi, 274, 334
Lucas, Mr. W. O., obituary notice of, 273
Luke, Mr. J., and the College of Surgeons, 639
Lumley, Mr. W. G., the Vaccination Bill, 384
Lunacy Commissioners' blue-books, the, 641
Lunatic asylum, new City, 218
——— Asylums, Reports of (review), 459
Lunatics, 273; and lunatic asylums in Scotland, report of the condition and management of, 635
Lungs, physiology of the, 327
Lyons surgeon, a, on English surgery, 81

M

MacCormac, Dr. W., excision of the tongue, 126
M'Gregor, Sir J., obituary notice of, 109
Macilwain, Mr. G., constitutional treatment of local diseases, 413
Maclean, Dr. W. C., on the treatment of tropical hepatitis, 80; on the treatment of cholera, 113, 167
Macnamara, Mr. N. C., Lectures on Diseases of the Eye; referring principally to those Affections requiring the Aid of the Ophthalmoscope for their Diagnosis (review), 402
M'Whinnie, Mr. A. M., obituary of, 303
Madeira, notes on the climate of, 133
Magistrates, medical, 643
Malaga, the climate and hygienic state of, 20
Mamma, glandular tumour of, successfully treated by injection of compound tincture of iodine, 326
Manchester and Salford Sanitary Association, 458
——— Medico-Ethical Association, 402
Mania, acute, severe injuries received by a female under the influence of, 368
Manure, removal of, from London, 301, 330
Margate and Ramsgate, low death-rate of, 554
Markham, Dr. W. O., pneumonia and venesection, 151
Marple district, Stockport, 27
Marr, Dr. J., obituary of, 527
Marriott, Dr. C. H., two successful cases of ovariotomy, 342
Marsupials, young, how are they placed in the maternal pouch? 543
"Mask of blood," a, 192
Materia Medica and Therapeutics, the Essentials of (review), 403
Maternity, early, 473
Maudsley, Dr. H., on melancholia with stupor and dementia, 343; practical observations on insanity of feeling and of action, 679
Maunder, Mr. C. F., on a case of congenital hernia in an infant twenty-eight days old, 286; clinical remarks on two cases of idiopathic abscess of the prostate gland, 423; on a lithotrity syringe, 455, 503
Mauritius, 273
Maxwell, Dr. P., dilatation of the iris by sulphate of atropine, 360
Mayors, medical, 217, 241
Meat, diseased, 54; on the concentration and preservation of, 185; preserved, 273
Medical Act, amendment of the, 351, 556, 611, 615

MEDICAL ANNOTATIONS.

Milton, Mr. M. J., naval invaliding, 417, 675

Mineral waters, 47

MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

CHARING-CROSS HOSPITAL.—Cases of excision of the hip-joint, 512

GREAT NORTHERN HOSPITAL.—Compound comminuted fracture of the bones of the leg; delirium tremens; death, 257—Treatment of hip-joint disease by gutta-percha splints, 360—A case of resuscitation, after drowning, by a combination of the plans of Dr. Silvester and Dr. Marshall Hall, 483

GUY'S HOSPITAL.—Bedside remarks upon some cases in the wards, 6—Amputation through the knee-joint by a circular cut; recovery, 36—Elephantiasis of the left leg; ligature of the external iliac artery, 146—Chronic ulcer of stomach; thickened and contracted state of coats; persistent vomiting; death from exhaustion; autopsy; clinical remarks, 237—A case of poisoning by accumulation of volatile hydro-carbons in a disused tar-boiler; recovery, 255—Cirsoid aneurism of the foot; ligature, successively, of the posterior tibial, dorsalis pedis, and anterior tibial arteries; cure, 536—Croup; tracheotomy; fatal hæmorrhage on the fifth day after operation from ulceration of the innominate artery, 623—Croup; tracheotomy; recovery, ib. — A case of cholera, which recovered, 709

HOSPITAL FOR CONSUMPTION, BROMPTON.—Fracture of the skull, with extravasation of blood upon the brain; death; autopsy, 537

HOSPITAL FOR SICK CHILDREN.—The sequel in some cases of excision and amputation, 203

KING'S COLLEGE HOSPITAL.—Large aneurismal tumour in the posterior triangle, diagnosed by the aid of the sphygmograph; hæmorrhage from rupture; death; autopsy, 65—Case of radical cure of inguinal hernia; wire method, with seton through the sac, 122—Two cases of necrosis; remarks upon the removal of dead bone, 176—A case of progressive locomotor ataxy; and one of progressive muscular atrophy from lead-poisoning, 344—A case of lithotrity followed by lithotomy, 424—Employment of local anæsthesia, ib. —The natural course of typhus, 657 — Case of oblique inguinal hernia and varicocele successfully operated upon at the same time, 685

LONDON HOSPITAL.—Cone-shaped aneurism of the arch of the aorta, simulating aneurism of the innominate, 66—Clinical remarks on emotional and intellectual language in some cases of disease of the nervous system, 174—Congenital hernia in an infant twenty-eight days old; strangulation; operation; death; remarks, 286—A case of progressive locomotor ataxy; loss of smell and hearing; defect of sight, with atrophy of the optic discs; varicocele and atrophy of the testis, 345—Two cases of idiopathic abscess of the prostate gland; clinical remarks, 423—Painful in-growing nails of great toes of both feet, cured by operation without interference with the nails, 456—Acute perforating ulcer of the duodenum, after a severe burn, 484—Case of hydrophobia, with remarks, 511

MIDDLESEX HOSPITAL. — A case in which tracheotomy and Cæsarean section were performed, 35—Case of abscess of the brain following a kick; trephining; evacuation of the contents; death, 92—Compound fracture of the frontal bone; removal of sequestra; recovery, ib.—Iodoform; its use in some cases of cancer, syphilis, and neuralgia, 205—Employment of drainage-tubes, 254 — Strangulated omental hernia in a patient affected with ascites; operation; death; autopsy, 287 — Four cases of submaxillary abscess connected with disease of the lower jaw, 313—The application of chloride of zinc in solution to surgical and accidental wounds; remarks upon some cases, 398—New operation for the radical cure of nævus, 456 — Pistol-shot wound of the head; pyæmia; post-mortem examination 536—Large dermoid cyst of the ovary; suppuration; death; autopsy, 650—A case of sinus on the hip, originating in a renal abscess, which ultimately burst into the peritoneal cavity, and killed by exciting peritonitis and pyæmia, 684

NATIONAL HOSPITAL FOR THE EPILEPTIC AND PARALYSED.—Clinical remarks on the occasional occurrence of subjective sensations of smell in patients who are liable to epileptiform seizures, or who have symptoms of mental derangement; and in others, 659

ROYAL FREE HOSPITAL. — Cases of strangulated omentum and bowel, 285

ROYAL LONDON OPHTHALMIC HOSPITAL.—Case of paralysis of both external recti muscles, attributed to a blow on the forehead; occipital headache; history of syphilis four years previously, 314—Severe burn of the eye and palpebral surfaces of both eyelids from the explosion of a squib close to the eye, followed by inflammation and suppuration of the globe and conjunctiva of the lids, 399—Injury to the eye from gunpowder; lodgment of some unexploded grains in the cornea and conjunctiva covering the sclerotic, ib.

ST. BARTHOLOMEW'S HOSPITAL. — Strangulated femoral hernia; operation; intestine gangrenous; artificial anus; recovery, 92 — Elephantiasis of the right leg 147—Iodoform; its use in some cases of cancer of the uterus, 205—Congenital hernia in a young man; frequent descent of the intestine; strangulation for five days; mortification of the intestine; death, 286—Severe injuries received by a female labouring under acute mania by precipitating herself from a housetop, 368—Popliteal aneurism of the right leg, in a man who had previously undergone the operation of ligature of the femoral artery for aneurism in the opposite limb; ligature of the right femoral artery; recovery, 456—Fractures of the os calcis, ib.—Epithelioma of the face; removal; amputation of the arm; employment of chloride of zinc in solution, 483—Necrosis of the lower jaw from application of tobacco oil to a hollow tooth; removal of dead bone, 684—Case of recto-vaginal fistula; repeated operations; recovery, 711

ST. GEORGE'S HOSPITAL.—Amputation through the knee-joint by flaps; fatal result, 35—Amputation through the knee-joint by flaps; recovery, 36—Elephantiasis of the left leg; treatment by local applications, 147 — A case of double pneumonia treated by bleeding, tartar emetic, and calomel; recovery, 237—Case of poisoning by essential oil of bitter almonds; death; autopsy, 255—Amputation at the hip-joint for recurrent fibroid disease of the thigh, 367—Amputation at the hip-joint for long-standing disease of the pelvis and upper part of the femur, 368—Rupia-like ulceration of the skin in a child; possible syphilitic infection by vaccination, 424 — Deep ulcers leading to necrosed bone in both tibiæ of a girl, probably of congenital syphilitic origin, ib.—Threatened death by apnœa; recovery by artificial respiration and galvanism, 425 — Renal dropsy; typhoid fever; scarlet fever; acute nephritis; death, 620

ST. MARY'S HOSPITAL. — Cases illustrating the use of belladonna and bromide of potassium in epilepsy, 92—Compound fracture of the patella from a fall upon the edge of a scythe; recovery, 123—Aneurism of the axillary artery; examination by the sphygmograph, 176—Rupture of the ileum at the seat of an ulcer; peritonitis; death, 256—Operation for ptosis; extirpation of an eyeball under local anæsthesia, 425—A case of red softening of the brain; hemiplegia of the right side, with rigid muscles, 621

ST. THOMAS'S HOSPITAL. — Case of dislocation at the knee-joint, 309 — Stone in the urethra; successful removal, 457 — Cases of fracture of the patella by direct and indirect violence, 513

UNIVERSITY COLLEGE HOSPITAL. — Twins; arm presentation of second fœtus, with spontaneous expulsion; live birth, 92 — Primary amputation of leg for injury; acupressure; sloughing; secondary hæmorrhage; pyæmia; death, 123—Large sebaceous cyst at the back of the neck; successful removal, 257 — Novel treatment of gonorrhœa and gleet, 513 — A case of red softening of the brain; hemiplegia of the right side, with rigid muscles, 621

WEST LONDON HOSPITAL.—Compound fracture of the ankle-joint; amputation; gangrene; death, 123

WESTMINSTER HOSPITAL. — Diagnosis of chronic alcoholism, 399—Two cases of extravasation of urine, one with retention, 457 — Large axillary tumour; successful removal, 685—Transfixion of the base of the tongue by a needle; diagnosis and removal with the aid of the laryngoscope, 710
